CURRENT RESEARCH INTEREST

I am interested in Alternative Dispute Resolution (ADR) processes - Arbitration, Mediation/Conciliation and Negotiation in resolving commercial disputes specifically and other disputes generally. I am also interested in Online Dispute Resolution (ODR) and Virtual Hearing. As a practitioner of these processes, I see myself as a proponent and vendor of the processes. When appropriate, I resort to litigation. I am at home with virtual hearing and all the Protocols, Guides and Rules.

The philosophy, development, methods and processes for privatizing/commercializing/reform of state-owned enterprises are very attractive to be ignored. I am passionate about them. I am an Advocate of PPP and a disciple of reform and corporate governance. I believe in the strengthening of regulatory institutions.

I am also interested in legislative/legal drafting, development of a curriculum in arbitration/mediation in Nigeria, the provision of legal and institutional framework for PPPs in Nigeria and International Economic Law. I have done a lot of work in the area of Investment Law and Dispute Resolution Processes - pure commercial disputes and investment treaty disputes. I am at home with the Model Laws/Conventions of the United Nations Commission on International Trade Law (UNCITRAL) and the Convention on the Settlement of Investment Disputes Between States and Nationals of Other Contracting States. I am also following their reform initiatives especially in the face of the criticisms of the Investor-State Dispute Settlement (ISDS).
